## In breve dai calandroni alla capsula del tempo

### Calandra PVC e Nastri in gomma

Un mese di ottobre denso di novità: consegnata la calandra gigante 5 cilindri per foglia PVC per prodotti farmaceutici ad un importante produttore Europeo. Domenica 12 ottobre la nostra associazione NOI DELLA COMERIO 1885 partecipa al "lancio" della capsula del tempo che ci porterà al 2040: venti anni 20-40 di nuovo impegno come sempre con passione e determinazione.

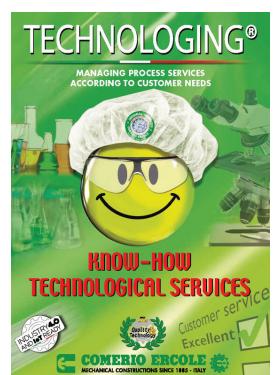

In ultimo siamo orgogliosi della realizzazione e messa in funzione di un impianto di calandratura gomma del tutto innovativo nel campo della calandratura dei nastri trasportatori per il noto gruppo SIG Società Italiana Gomma Spa. Si tratta di un impianto di grande prestazione e particolarmente integrato dal punto di vista IoT ed esempio effettivo di quella che è oggi l'Industria 4.0

## "GIANT" calenderline delivered to a TOP Qualified European Producer

5 Roll "Turn key" 2000 mm PVC Calenderline for Pharma Field

We have delivered the GIANT 5 roll PVC calenderline to a top qualified European producer for pharma calendered materials. The installation on site is almost completed and we expect to start the commissioning very soon. The scope of supply consist of a 5 roll calender 2000 mm width complete with take off unit, innovative embossing unit and cooling unit. All prewarming equipment have been supplied as well as all post calender ancillary devices and unit. The development of new technological recipes have been finalized at COMERIO ERCOLE Italian laboratory where a "small size" PVC calenderline is available for R&D test and training sessions. "It is a great advantage for COMERIO ERCOLE to have at disposal a brand new fully integrated Industry 4.0 lab calenderline with extruder and mixing devices also where all possible test and process development can be simulate and verified in advance" said Riccardo Comerio - CEO of COMERIO ERCOLE group.

*What was never considered possible is now possible!*

## VISIONS FOR THE FUTURE

Lo scrigno che ospiterà i desideri e le aspettative sulla Città del 2040

CAPSULA DEL TEMPO  
2020 - 2040

dalle 11.00 alle 17.00

Cerimonia di Chiusura ed interramento:  
11 ottobre 2020 dalle ore 10.00

Cerimonia di Apertura:  
11 ottobre 2040 alle 12.00

### TIME CAPSULE 2020-2040

COMERIO ERCOLE with his social association "NOI della COMERIO 1885" support the "vision for the future" project promoted by the local civil authorities. On 10 Oct. 2020 a time capsule will be buried with public ceremonies awaiting people and future generations. The goal of our big family is to contribute in the next twenty years to make civil society at a world level more responsible and where principles of peace, freedom and justice are practiced everywhere, to not forgetting our industrial reality which since 1885 has been a fundamental reference point for all Italian manufacturing excellence.
