

COMERIO ERCOLE

MECHANICAL CONSTRUCTIONS SINCE 1885 ITALY

Comerio Ercole nella top 100 "sostenibile"

**Miglior azienda italiana per la
sostenibilità in ambito sociale**

L 11 Ottobre COMERIO ERCOLE ha presenziato alla serata di gala, tenutasi a Milano, in occasione della prima edizione del Sustainability Award dove hanno partecipato le migliori eccellenze dell'imprenditoria italiana, pubblicate su Forbes nella lista delle 100 aziende italiane che si sono distinte per sostenibilità. Le aziende presenti al gala sono state scelte perché sono riuscite a soddisfare due criteri di valutazione: uno fondato sul modello di rating ESG sviluppato da ALTIS e il secondo basato sulla metodologia di Reprisk. Durante la cerimonia ha ottenuto l'ambito riconoscimento TOP SOCIAL ESG come miglior azienda italiana nel segmento "middle size" per la sostenibilità in ambito sociale.

Comerio Ercole in the top 100 "sustainable"

Best Italian company for social sustainability.

Among the 100 Italian champions of sustainability there is also COMERIO ERCOLE that proudly celebrate this achievement. It also won the coveted TOP SOCIAL ESG recognition as the best Italian company in the "middle size" segment for social sustainability. Thus ended the first edition of "Sustainability Award", held in Milan on 11 October, which saw the participation of the best excellences of Italian entrepreneurship. Forbes has published a list of these 100 companies nominated for this first edition promoted by Credit Suisse and Kon Group. The identified companies underwent an independent assessment of two technical partners: the first based on the ESG rating model developed by ALTIS "Alta Scuola Impresa e Società" of the Catholic University of the Sacro cuore and the second based on the Reprisk methodology. The Sustainability Award is a recognition reserved for Italian companies that have distinguished themselves in the launch and implementation of sustainable and inclusive development paths, with the aim of generating value for stakeholders and the community.

What was never considered possible is now possible!

Why this achievement is so important for COMERIO ERCOLE?

Riccardo comerio, our CEO manager, explains:

"Receiving the invitation to participate to the "sustainability awards" was a great pleasure and an opportunity to confront other solid realities regarding a theme that is very dear to us. Winning the TOP SOCIAL ESG award as the best Italian company in the "middle size" segment for sustainability in the social field is the crowning of all the forces and investments that our company has employed to improve and bring out a very important issue that tends to be overshadowed. I particularly want to emphasize that this award does not mark an end to our efforts but rather a spur to follow our line of thought and action regarding sustainability".
