*Busto A., January 1, 2005*

*Dear Sirs*

*The board of directors of our company has recently decided to stop the activities related to the "Rubber and Plastic PVC Division" (two roll mixing mills, internal mixers with tangential or intermeshing rotors, different configuration calendars, complete calenderlines, spare parts and assistance-service).*

*As we do not want to continue such an activity in the future, as on the opposite we intend to strengthen our position in the "Extrusion Division" (staple fiber lines, spunbond and meltblown lines, strap lines, composite sheets lines, etc) and in order to guarantee to all our customers the continuing of the assistance service and machinery replacement, we INFORM that we have reached an agreement with Messrs. COMERIO ERCOLE SPA who will perform all what is necessary.*

*COMERIO ERCOLE SPA is a very well known company in the rubber and plastic machinery division and will therefore be able to satisfy the supply of original spare parts and performances together with the manufacture of machines and complete lines with an always better service to all our customers.*

*Any enquiries in such a sense can therefore be sent directly to COMERIO ERCOLE SPA of whom we are indicating hereunder all specific references: of course in case of necessity feel free to contact also our company who will manage the necessary follow-up.*

**COMERIO ERCOLE SPA**

*Via Castellanza 100*

*21052 Busto Arsizio (VA)*

*Tel. +39/0331/488411*

*Tel. +39/0331/488 472 spare parts direct service*

*Fax +39/0331/488421*
