

COMERIO ERCOLE

QUALITY & TECHNOLOGY SINCE 1885 ITALY

INFO NEWS

Volume 2023 - Ed.05

IN BREVE in questo mese di maggio un grande impianto di calandratura è stato completato e spedito dal nostro stabilimento di Castellanza: destinazione estremo oriente dove già alcuni nostri tecnici sono all'opera per la messa a punto del sito. Sempre nel mese si è completata una attività legata al nostro piano di sostenibilità sociale con la deposizione di 6 "pietre di inciampo" ora collocate all'entrata del parco Comerio Ercole di Via Magenta a Busto Arsizio per ricordare i fatti del 1944 che videro coinvolti 6 lavoratori della Comerio Ercole: Vittorio Arconti, Arturo Cucchetti, Ambrogio Gallazzi, Alvisè Mazzon, Giacomo Biancini e Guglielmo Toia.

EXPORT OF AN IMPORTANT CALENDERING PLANT in this month an important and innovative calendering plant has been realized and exported to South Far East by means of a special air transportation. All Comerio Ercole's team is extremely excited by having positively performed all pre-delivery dry tests in order to grant a quick installation on customer's plant, in the meanwhile a high-skilled supervisor team is already preparing all planned activities.

It is quite unusual for our "BIG" calendering equipment to be transported by air. In this specific case we pleased our final customer request, who belongs to the pharmaceutical field. We think that the undertaken choice offers a great opportunity in terms of customized transportation and packaging.

Impossible becomes possible!

COMERIO ERCOLE'S SUSTAINABILITY TEAM RELEASED THE ESG REPORT 2023

COMERIO ERCOLE's top management together with the entire operating structure pay a specific strategic attention to social and environmental issues. As years pass by, an increasing awareness emerges from the elaboration of the sustainability report. COMERIO ERCOLE has a strong sensitivity towards global business views. This attitude is rooted in its personal style and in the quality of its objectives, which are well ahead, if compared to current ESG identifications. We draw up the ESG sustainability report on a complete voluntary basis for the awareness of its role towards the social, economic, and environmental context. The sustainability 2023 ESG report, in light of the recent process of revision and approval of the 2023 Code of Ethics (first version 2007), also recognizes the dedication and commitment of all those who, while diversifying their specific skills, promote conditions of a more conscious freedom and dignity on the horizon of cultural homogeneity.

To download the English copy of the 2023 ESG report, just scan the QR code at the side.
