04-2023

INDEX EXPO 2023

Ginevra , Svizzera

Nella splendida cornice internazionale di GINEVRA si è svolta da 18 al 21 aprile 2023 la 14° edizione consecutiva della INDEX, la più prestigiosa esibizione per l'industria dei NONTESSUTI. L'edizione 2023, tenutasi come di consueto al PALEXPO, ha visto la presenza di 610 espositori da 43 paesi e oltre 12.000 visitatori da tutto il mondo. L'esibizione ha segnato il ritorno dei visitatori internazionali dopo lo stop forzato dovuto al periodo pandemico. COMERIO ERCOLE, come sempre, era presente con il suo team specializzato in un grande spazio espositivo (Hall 1- stand 1122) in collaborazione con le aziende sinergiche del gruppo: ATF AUTOMATION Srl che produce sistemi di arrotolamento e BETA MACHINERY Spa che produce sistemi di impregnazione.

INDEX EXPO 2023

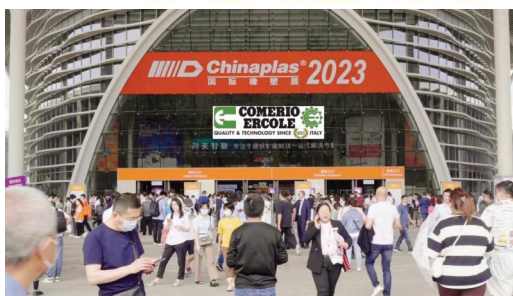

The most important NonWovens EXPO - Geneva, Switzerland

The 14th consecutive edition of INDEX, the most prestigious exhibition for the NONWOVENS industry, took place from 18 to 21 April 2023 at PALEXPO in the splendid international setting of GENEVA. The 2023 edition of INDEX™ attracted 610 exhibitors from 43 countries and over 12'000 visitors from all around the world, covering approximately 50'000 m2 of exhibition halls. As a matter of fact the exhibition welcomed the return of international people "in presence" after pandemic stop period. COMERIO ERCOLE, as usual, was present with its specialized nonwovens team in a large booth (H1 stand 1122) co-sharing the space with the synergic companies of COMERIO ERCOLE group i.e. ATF AUTOMATION, which manufactures winding systems and BETA MACHINERY specialized in squeezing padders. A great interest has been paid to the last technology introduced by COMERIO ERCOLE expressly dedicated to PET and BICOPEL nonwovens field.

What was never considered possible is now possible!

CHINAPLAS 2023 - A GREAT AND STRONG COMING BACK TO THE FUTURE AFTER COVID PANDEMIC YEARS

COMERIO ERCOLE team was physically present in China in Schenzen last week on April 17-20. COMERIO ERCOLE was at the fair with our Italian staff and our Chinese team for the most important fair in Asia: CHINAPLAS 2023. This fair had been postponed and limited for the last two years for COVID reasons and only now we return to a normality made up of contacts and presences. Our Italian technical/commercial staff, understandably excited by this return, was present with many important innovations to be presented to all visitors both in the plastics and rubber sectors. In the 3 day exhibition we welcomed at our stand many visitors, customers and friends happy to have the opportunity to shake hands again after some years. CHINAPLAS 2023 is an event that sees an incredible presence not only from China but from all over the world! Comerio Ercole specifically presented the new digital platform HERCULES40 available for all our plastic and rubber customers having now the opportunity to give real values of data already elaborated by existing PLC from our previous supply as well as new innovations filed upon INDUSTRY 4.0 concept for a constant increase of efficiency and productivity. STAY TUNED WITH US!
