

COMERIO ERCOLE

QUALITY & TECHNOLOGY SINCE 1885 ITALY

INFO NEWS

Volume 2023 - Ed.07

IN BREVE in questo mese di luglio tanti impegni. La messa in funzione del nuovo e rivoluzionario dispositivo innovativo tipo revolver per il cambio automatico dei cilindri di pressione e guida su una linea di calandratura cord metallico. Nel mese anche una apertura ai clienti per ispezione macchinari.

NEW WEB SITE OPENING SOON. Very soon the updated web site www.comercole.it will be available with all revised technical data sheets for all involved industrial sectors and a new CRM will be integrated too. Historical section will be improved taking into consideration that the future is based on the past experiences and COMERIO ERCOLE has a long and fruitful story to put at disposal for all international customers granting 360° customer service integration.

What was never considered possible is now possible!

COMERIO ERCOLE “TWIN REVOLVER” STEEL CORD CALENDERLIN STEELPRESSURING® mean the pressure roll device to apply steel cords in the rubber sheet granting a proper and accurate penetration between steel cords and rubber sheet in “pressure” production mode or alternatively, according proper technological know how, assure a very accurate distance between pressure roll and calender roll in “position” production mode. The device prevent steel cord jumping during the displacement of pressure device from threading to production phase. COMERIO ERCOLE has developed and put into operation an innovative device “TWIN REVOLVER” granting one set of guide and pressure roll in production as well as the second ready to be changed for a following automatic threading. Two proportional pressure valves can be added in order to adjust the pressure by PLC on main control desk separately each side in addition to position setting.
