

COMERIO ERCOLE

QUALITY & TECHNOLOGY SINCE 1885 ITALY

INFO NEWS

Volume 2023 - Ed.12

IN BREVE Questo mese tante attività di preparazione all'inverno con un nuovo impianto fotovoltaico che ci rende indipendenti dal punto di vista energetico per il 2024.

COMERIO ERCOLE ORGANIZED WITH LIUC CATTANEO UNIVERSITY of Castellanza a meeting of a large delegation of university students on ERASMUS exchange coming from several European countries. It was an opportunity for discussion both to explain the productions of COMERIO ERCOLE and the work/business model but above all also to get very interesting ideas from young people with higher education and who live economic realities different from the Italian one.

What was never considered possible is now possible!

COMERIO ERCOLE INNOVATIVE PLANT

All the engineering team proud for an innovative and revolutionary production plant for multipurpose application in the special elastomer compound calendaring field. A new patent has been filed in the recent days also for the specific purpose according the new technology. During 2024 all technical details will be released, the innovative plant is linked to a new high performance technology granting compared and improved process performances according revolutionary lay out and new involved machinery developed by COMERIO ERCOLE team during all this year. Several R&D test have been applied at COMERIO ERCOLE laboratories in the period for the specific purpose.
