

# COMERIO ERCOLE

QUALITY & TECHNOLOGY SINCE 1885 ITALY

## INFO NEWS

**IN BREVE:** Nel 2025 Comerio Ercole ha vissuto un anno particolarmente significativo, segnato dal 140° anniversario dalla fondazione e da un forte slancio verso il futuro. La celebrazione non è stata solo un momento di memoria storica, ma l'occasione per riaffermare i valori che da sempre guidano l'azienda: innovazione, qualità, sostenibilità e centralità delle persone. Durante l'anno sono stati realizzati importanti investimenti industriali e tecnologici, rafforzando il percorso verso l'Industry 5.0, insieme a iniziative concrete per ridurre l'impatto ambientale e migliorare l'efficienza energetica. La digitalizzazione ha continuato a supportare processi sempre più intelligenti, trasparenti e sostenibili, a beneficio sia dell'azienda sia dei clienti. Elemento chiave del 2025 è stato anche il coinvolgimento delle persone, valorizzato attraverso iniziative come l'Albero delle Idee, simbolo di una cultura aziendale partecipativa e orientata al miglioramento continuo. A fine anno, Comerio Ercole rinnova i propri auguri di Natale e di buon anno a tutti!

In 2025, Comerio Ercole continued a journey that has been unfolding for 140 years: a path defined by engineering excellence, technological curiosity, and a deeply rooted belief in people as the true drivers of innovation. This year was not only about celebrating a remarkable anniversary, but also about strengthening a shared vision for the future: one built on sustainability, digital transformation, and collective intelligence.

The celebration of 140 years since the company's foundation in 1885 marked a symbolic and emotional moment for Comerio Ercole. It was an opportunity to look back at a long industrial heritage while, at the same time, reinforcing a forward-looking mindset.

The anniversary year brought together employees, partners, institutions and clients, highlighting how the company's success has always been the result of collaboration, continuity, and the ability to evolve alongside changing markets and technologies. More than a celebration of the past, 2025 became a statement of intent: Comerio Ercole continues to invest, innovate and grow with confidence.

Throughout the year, strategic investments strengthened industrial capabilities and supported the transition toward Industry 5.0. New high-precision machining solutions and advanced experimental equipment enhanced flexibility, accuracy and research potential, reinforcing the company's ability to respond to increasingly complex production requirements. At the same time, sustainability remained a concrete priority. The expansion of photovoltaic systems and energy-efficiency initiatives further reduced environmental impact, confirming Comerio Ercole's long-term commitment to responsible and forward-looking industrial development.

Digital transformation also played a central role in 2025. The evolution of data-driven tools and platforms allowed the company and its customers to better monitor performance, energy consumption and environmental indicators. Digital innovation, for Comerio Ercole, is not an end in itself but a means to create smarter, more transparent, and more sustainable production processes, where technology supports both efficiency and environmental responsibility.

## 1885-2025 140° Anniversary Celebration

Internationally, 2025 was marked by continuous dialogue with the global market. Through its presence at major trade fairs and industry events, Comerio Ercole strengthened relationships with long-standing partners and engaged with new stakeholders, sharing expertise and listening carefully to emerging needs. These moments of exchange remain essential to the company's ability to anticipate trends and deliver solutions aligned with the real challenges faced by customers worldwide. At the core of all these achievements lies the contribution of people. This philosophy is clearly reflected in the "Tree of Ideas" initiative, which continues to be a powerful symbol of Comerio Ercole's internal culture. By encouraging employees to share ideas, suggestions and constructive feedback, the company nurtures a participatory approach to innovation, where improvement is a shared responsibility. Each idea represents a seed of change, capable of generating value when cultivated with attention and trust.

The initiative's connection to sustainability, through tangible environmental actions, further reinforces the link between creativity, responsibility and long-term vision. As the year draws to a close, Comerio Ercole takes this opportunity to extend its warmest Christmas wishes and end-of-year greetings to all customers, partners, suppliers and collaborators around the world. May the holiday season be a time of reflection, serenity and renewed energy and may the new year bring health, success and new opportunities for growth. With gratitude for the trust and collaboration shared throughout 2025, Comerio Ercole looks ahead with optimism, ready to continue building the future together-guided by ideas, innovation and people.
