

# COMERIO ERCOLE

QUALITY & TECHNOLOGY SINCE 1885 ITALY

## INFO NEWS

### IN BRIEF:

Comerio Ercole è stata premiata come "Italian Company of the Year - Manufacturing" agli ACQ5 Global Awards 2026, un riconoscimento internazionale che valorizza eccellenza, innovazione e leadership nel settore manifatturiero. Il premio celebra oltre 140 anni di impegno nella qualità, nell'affidabilità industriale e nello sviluppo tecnologico, in particolare nelle soluzioni di calandratura e miscelazione. Nel 2026 l'azienda rafforzerà ulteriormente la propria presenza globale partecipando anche a nuove fiere internazionali mai presidiate in precedenza, con l'obiettivo di espandere i mercati e sviluppare nuove partnership. Tra i principali appuntamenti figura il Tire Technology Expo 2026 ad Hannover, dove Comerio Ercole presenterà soluzioni avanzate per la produzione automatizzata e sostenibile, insieme a tecnologie digitali e di intelligenza artificiale come MINERV-AI®, dedicate alla valorizzazione del know-how industriale.

Comerio Ercole has been honored with the prestigious "Italian Company of the Year - Manufacturing" award at the ACQ5 Global Awards 2026, marking a major milestone in the company's long history of industrial excellence. This recognition from ACQ5, a globally respected M&A magazine and business news platform known for its authoritative awards programs that spotlight outstanding commercial achievements, underscores Comerio Ercole's leadership in the manufacturing sector. The ACQ5 Global Awards are internationally recognized accolades that celebrate organizations and individuals demonstrating exceptional performance, innovation and impact across global markets.

These awards draw on a rigorous nomination and voting process driven by industry peers and extensive research, making them a credible benchmark for excellence across sectors. Winning such an award positions the recipient among the top performers and highlights their ability to meet evolving industry challenges with distinction.

For Comerio Ercole, being named Italian Manufacturing Company of the Year is a testament to more than 140 years of unwavering commitment to quality, technological innovation, and industrial reliability. The company's expertise in specialized calendering and mixing solutions has set a high standard in manufacturing, blending traditional engineering values with modern advancements. This recognition not only celebrates past achievements but also reinforces Comerio Ercole's strong vision for future growth and leadership on the global stage. Such prestigious awards are important because they provide global visibility, validate strategic excellence and enhance corporate reputation among customers, partners, and stakeholders. With this accolade, Comerio Ercole's commitment to excellence is recognized not just within its industry niche but across the broader global manufacturing community.

Volume 2026 - Ed. 01

### WE WON

### ITALY - COMPANY OF THE YEAR (MANUFACTURING)

*Innovation, engineered for what's next.*

Comerio Ercole is actively expanding its global presence in 2026 by participating in a series of key industry trade shows and exhibitions, strengthening relationships with existing partners while reaching new international audiences. With a strategy focused on innovation, visibility and strategic growth, the company is preparing to attend major events it has never participated in before, further establishing its footprint across global markets. This initiative reflects a clear commitment to internationalization and direct market engagement, allowing Comerio Ercole to showcase its expertise, understand regional industry needs and build new strategic partnerships across different geographical areas. The next major event on the calendar is the Tire Technology Expo 2026, taking place in Hannover, Germany, from March 3-5, 2026. This expo is one of the world's leading gatherings for tire industry professionals, showcasing cutting-edge technologies, materials and manufacturing solutions. Comerio Ercole will be exhibiting at Hall 21 - Stand 8006, where it will present its latest developments in rubber calendering, automated production systems and sustainable manufacturing solutions designed to meet the evolving needs of the tire and rubber sectors. By engaging with these diverse trade shows, Comerio Ercole continues to elevate its brand and technological leadership, reinforcing its role as a trusted partner in advanced manufacturing. With long-standing expertise in engineering and production excellence, the company is well positioned to drive innovation while deepening its influence in markets around the world.

MUCH MORE TO COME!**

**STAY TUNED!**

Alongside its mechanical and process innovations, Comerio Ercole will also highlight its growing focus on digital solutions and artificial intelligence. Among the technologies presented, several AI-based tools will be showcased, including MINERV-AI®, designed to support the digitalization of industrial knowledge. MINERV-AI® enables the intelligent capture, structuring and automation of work, maintenance, quality and safety procedures, helping companies preserve know-how and improve operational efficiency. These solutions reflect Comerio Ercole's commitment to integrating advanced digital technologies into its engineering expertise, offering customers smart, future-oriented tools that enhance productivity, knowledge sharing and process reliability across modern manufacturing environments.
