GREAT NEWS!

Comerio Ercole has been awarded the **“Tire Manufacturing Innovation of the Year”** at the Tire Technology International Awards for Innovation and Excellence 2026, one of the most prestigious recognitions in the global tire industry.

Engineering the Future

With this award, Comerio Ercole further strengthens its position as a trusted technology partner for tire manufacturers worldwide, continuing to invest in research, innovation, and high-performance calendaring solutions. The recognition highlights the company's commitment to advancing calendaring technologies that enable tire manufacturers to achieve greater process consistency and superior product quality, while improving energy efficiency and ensuring high levels of operational reliability.

Comerio Ercole would like to sincerely thank everyone, especially its partners and customers, who continue to support the company's technological journey. This recognition is a great encouragement for the entire team, which will continue working with dedication and passion to develop innovative solutions and to deliver its very best in the future.

THANK YOU
